ABSTRACT

An abstract is a short summary of your report. It concisely reports the aims and outcomes of your work so that readers know exactly what the rest of the report is about.

Index Terms— One, two, three, four, five

1. INTRODUCTION

Motivate the problem and/or provide some background.

2. PROPOSED WORK

Feel free to organize your report with any headings you want, such as, for example, “Proposed Work”. You can also use subheadings as follows.

2.1. Subheadings

You can also use subheadings that appear in lower case (initial word capitalized) in boldface.

3. SOME FORMATTING TIPS

Figures, such as Fig. 1, may span one or two columns. Caption and number every illustration. Colors may be used, but they should be selected so as to be readable when printed on a black-only printer.

List and number all bibliographical references at the end of the paper. The references can be numbered in alphabetic order or in order of appearance in the document. When referring to them in the text, type the corresponding reference number in square brackets as shown at the end of this sentence [1].

Fig. 1. Example of placing a figure with experimental results.

4. CONCLUSION

It is useful to add a section concluding your report.

5. REFERENCES
